#### 4.1.2 Console System

Classic mounting system for flat roofs, made from black HDPE.

From 0,20 €/Wp.

## 4.2 VGP

### 4.2.1 PVFix System

New photovoltaic mounting system for 60x156 mm cell modules on flat roofs. No ballast required on low wind areas. 10 degrees tilt. Galvanized steel.

From 0,10 €/Wp. Please ask for more details.

## 4.3 Multi-Contact

### 4.3.1 Cables

Flex-Sol 4 mm<sup>2</sup> and 1,5 mm<sup>2</sup>. Please ask for pricing.

### 4.3.2 Connectors

MC4 male and female connectors. Please ask for pricing.

## 5 CPV Systems

### 5.1 VGP

#### 5.1.1 CPVRS 072

Fully integrated 7,2 m<sup>2</sup> solar aperture 2,16 kWp CPV system.

It is designed to be assembled at decentralised facilities and shipped to the field as a single unit, thus optimizing logistics and minimizing installation and commissioning costs.

It includes triple junction high efficiency cells and concentration optics, allowing for DC 30% system efficiency on STC conditions.

From 0,9 €/Wp. Please ask for more details.

Datasheet:

## 6 PV Trackers

### 6.1 VGP

VGP two axis solar trackers are designed to be assembled at decentralised facilities and to be transportable, being especially suited for temporary sites.

#### 6.1.1 VGP PVASt 098

PVASt 098 is a fully integrated 9,8 m<sup>2</sup> aperture photovoltaic tracker, including 6 REC 265PE modules, with a total of 1,59 kWp of power.

From 2.078 € -1,31 €/Wp. REC modules included. Please ask for more details.

Datasheet:

<http://www.valldoreix-gp.com/wp-content/uploads/2015/03/VGP-PVASt098-Brochure-v35.pdf>

### 6.1.2 PVASt 196

PVASt 196 is a fully integrated 19,6 m<sup>2</sup> aperture photovoltaic tracker, including 12 REC 265PE modules, with a total of 3,18 kWp of power.

From 3.875,04€ - 1,22€/Wp. REC modules included. Please ask for more details.

Datasheet:

<http://www.valldoreix-gp.com/wp-content/uploads/2015/03/VGP-PVASt196-Brochure-v21.pdf>

### 6.1.3 PVASt 327

PVASt 327 is a fully integrated 32,7 m<sup>2</sup> aperture photovoltaic tracker, including 20 REC 265PE modules, with a total of 5,3 kWp of power.

From 5.522.32€- 1,04 €/Wp. REC modules included. Please ask for more details.

Datasheet:

[http://www.valldoreix-gp.com/wp-content/uploads/2015/03/VGP-PVASt-327-Brochure-v1\\_EN.pdf](http://www.valldoreix-gp.com/wp-content/uploads/2015/03/VGP-PVASt-327-Brochure-v1_EN.pdf)

**6.1.4 VGP PVHT 2106**

PVHT 2106 is a fully integrated 210,6 m<sup>2</sup> aperture photovoltaic single axis horizontal tracker, including 108 REC 315PE72 modules, with a total of 34 kWp, and an ABB PRO 33 three-phase inverter.

**Complete system from 0,86 €/Wp. Tracking system without modules nor inverter from 0,19€/Wp.**

Variable cost depending on the size and output of the installation.

Datasheet:

## 7 Energy Control System

### 7.1 VGP

#### 7.1.1 Watterflow System

Watterflow is a holistic energy monitoring and control system designed to optimize energy management of grid-connected and isolated renewable energy systems.

It is an open and flexible system which can be adapted to many different energy management environments and applications.

The Watterflow Basic option is for single phase inverters and can communicate through RS485 and Ethernet with several inverter brands (SMA, ABB Power-One, Fronius, etc.).

The Watterflow Plus model is for three phase inverters and can also communicate with Modbus and CAN devices for active load control.

model	Ph	€	availability	terms
Watterflow Basic	1	250,00	2 weeks	EXW Valldoreix
Watterflow Plus	3	512,00	2 weeks	EXW Valldoreix

## 9 Notes

### 9.1 Audience

This pricelist is addressed to photovoltaic professional customers (installers, engineering firms, project developers) and not to residential customers.

### 9.2 Liability

The present pricelist may be subject to changes at any time without previous notice.

### 9.3 Information Request

Please don't hesitate to contact us for any questions regarding product availability, certificates and technical information.

We can provide under request ".par" files for most of the offered modules.

### 9.4 Stock and Transport

Stock is located in several warehouses across Europe.

Whenever "**stock**" is shown in this pricelist, it means that the goods are available in a warehouse and ready for shipment.

Our common Incoterm is EXW (ex-works), but for some special cases it may differ.

In case you want a DAP offer, our transport rates are very competitive and are determined by distance, weight, volume and insurance cost.
